

# PORTSMOUTH AVIATION LIMITED

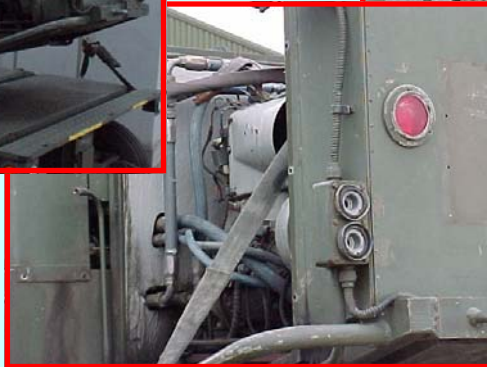

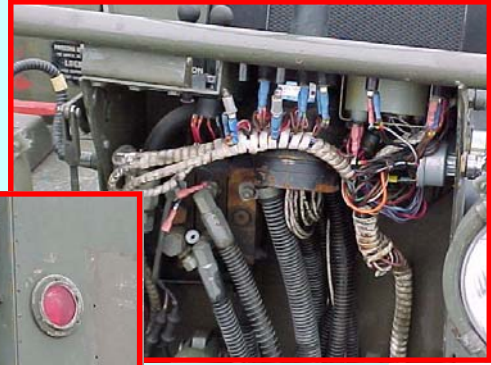

## Refurbishment

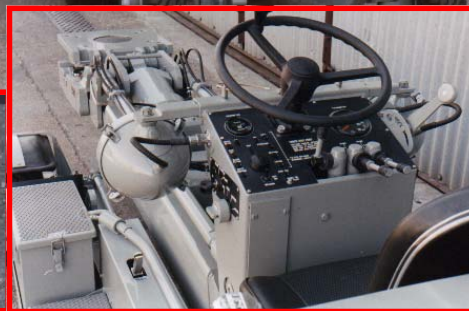

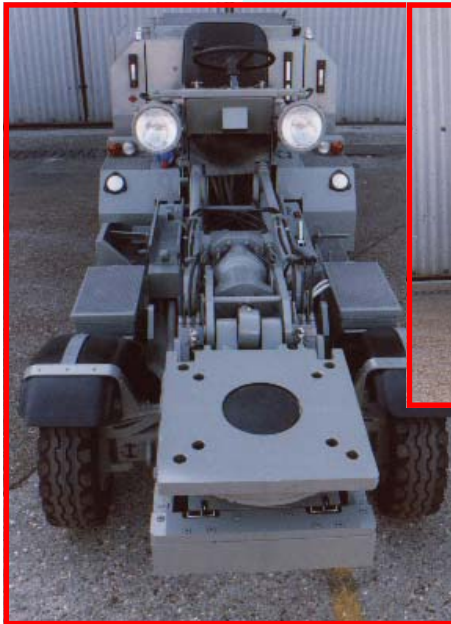

With over 70 years in Mechanical Engineering, PA offers a complete engineering solution to ISO 9001 standards from Design through Development, Test, Trials and Manufacture of the finished product. The Company is also experienced in the total refurbishment of equipments and this process can benefit customers in many ways.

- Refurbishment is Cost Effective
- Extends the Life of Expensive Equipment
- Allows the continuation of Operator Expertise
- No retraining required for maintenance technicians
- Spares Supply Continuation, No replacement/disposal of current stocks
- No new Technical Publications required

The Company's experience in Total Refurbishment extends from crate structures designed for the protection and transportation of Royal Navy Launchers, as illustrated overleaf, to the advanced powered weapon loaders used by the UK Ministry of Defence and British Aerospace customers overseas.
